JPMorgan Chase

March 9, 2025

Dear Hiring Manager,

I am writing to express my enthusiasm for the Summer Intern position in the Software Engineer Program at JPMorgan Chase. I am R H Addhithya, a Computer Science student specializing in AI & ML at Chennai Institute of Technology (CGPA: 8.54). As a current engineering student with a strong foundation in critical thinking, problem solving, and collaboration, I am eager to contribute to your team of innovative technologists.

The opportunity to work at a leading financial institution like JPMorgan Chase excites me, as it aligns with my passion for technology and innovation. Your commitment to investing in technology and collaborating with FinTech firms resonates with my eagerness to learn from industry leaders and gain exposure in various technological domains.

Though early in my career, my academic experiences in collaborative problem-solving have prepared me to take on challenges and contribute effectively. I am particularly drawn to your structured induction program, which offers a strong foundation to sharpen my skills and gain insight into global business operations.

Thank you for considering my application. I look forward to the possibility of joining your team where I can grow as an aspiring software engineer while contributing positively to creating innovative solutions that make a difference.

Sincerely,
R H Addhithya
